Subject: Wetland Impacts from the TB Containment System
Attachments: Water Mgmt During Containment System Constr - Plan View.pdf; Water Mgmt During Containment System Constr - Xsections.pdf

Hi Ralph,

Thank you for looking further into this.

These diagrams came from the NPDES application. The 404 application should have similar diagrams that also show the wetland impacts proposed, including acreages. Large Figure 10 in the application shows a line of wetland impacts around the toe of the tailings basin, but it isn't clear at this scale if this includes everything impacted by the containment system.

Do you have a close-up plan view and cross section of the containment system that includes the wetland impacts?

Thanks,

Melanie Burdick
